

NEW

TCBOLTS STRUCTURAL KO HRC ASSEMBLY

**AVAILABLE
TO ORDER**

FEATURES

Bolting made safe, easy & accurate

INSTALLATION

Installed with Tone® TCBOLT Shear Wrenches

APPLICATION

Tunnels, roads & bridges, rail, construction, stadiums

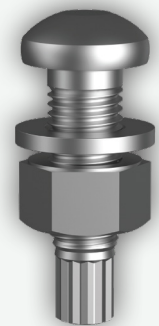

TENSION CONTROL BOLTS STRUCTURAL KO HRC ASSEMBLY

Tension control bolt assemblies (B,N,W) are designed to eliminate operator error and installation in structural bolted connections. By using the specified material thickness and correct hole size, installation is fast and guaranteed.

Hot dip galvanised / EN14399-10:2018 / Class 10.9

- Reliable and consistent tension
- Does not loosen with vibration - no locknut required
- One man installation (reduced operator fatigue)

*Size	Length (mm)	Code
M16	40 - 80	KBCT9GCM16
M20	45 - 100	KBCT9GCM20
M22	60 - 100	KBCT9GCM22
M24	60 - 150	KBCT9GCM24
M30	80 - 200	KBCT9GCM30
M36	90 - 200	KBCT9GCM36

*Hole size in steel work as per AS4100
