

REDUCE WASTE, TIME & RESOURCES

With our inventory management solutions

We take away the burden
of managing stock, ordering
and delivery

OVERVIEW

ABOUT *U-STOCK*

U-STOCK is United Fasteners' inventory management department.

U-STOCK takes care of purchasing, procurement, materials management, warehousing, maintenance and production processes, which helps streamline and improve efficiencies.

Our focus is on managing and maintaining an efficient supply of products that you need to conduct your business/manufacturing.

HOW IT WORKS

Alongside you, we identify products you need and how often you need them. We set your systems up so they're balanced with enough stock, but not overstocked.

1

Tell us about your current stock/supply issues or what improvements you would like to make to your current processes

2

Based on the information provided, we will propose the right solution for your business

3

Once a solution has been agreed upon, we will then provide a quotation on the items you require (based on your product usage)

4

Once the pricing has been approved, we will implement the agreed solution

5

Once implemented, we will maintain the right stock levels, saving your overall storage requirements and ensuring you never run out of stock

INVENTORY MANAGEMENT

Fasteners

Safety PPE

Abrasives

Sealants & Adhesives

Exclusive to

UNITED
Fasteners

-  Drill bits
-  Paints & Chemicals
-  Tools
-  Much more

OUR SOLUTIONS

When it comes to inventory management, we've got you covered.

From modest lockable storage cabinets to smart technology systems, we have a solution that's right for your business.

On-site

Storage cabinets, vending machines, smart dispensers, kanban and mobile containers.

Off-site

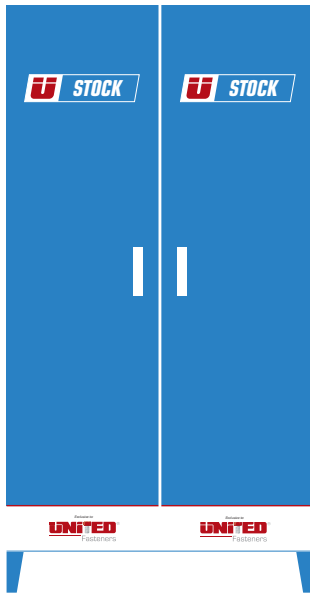

Consignment stock and custom packaging.

Before

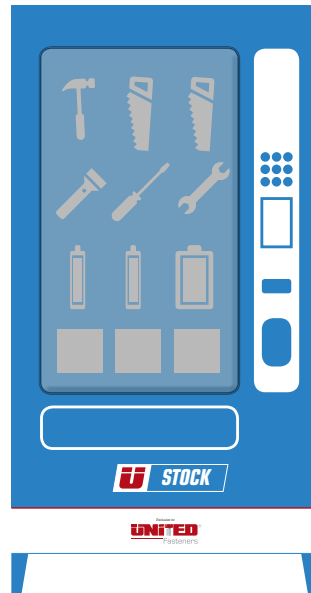

After (Kanban install)

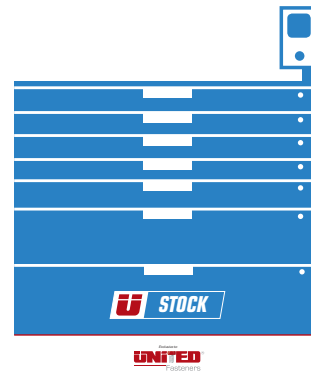

Storage Cabinet

- Suitable for easy access environments
- Hanging Stor-pak bins systems inside
- Lockable

SMART TECHNOLOGY Vending Machine

- Ideal for a wide range of consumable products
- Highly secure, ensuring greater control on stock

SMART TECHNOLOGY Smart Drawer

- Ultra-High-Density Dispensing
- The smart supply cabinet in a space-saving format
- Highly secure, ensuring greater control on stock
- Flexible Configurations
- Smart sensors in each drawer count every item removed or added from bins, from 10g to 18kg

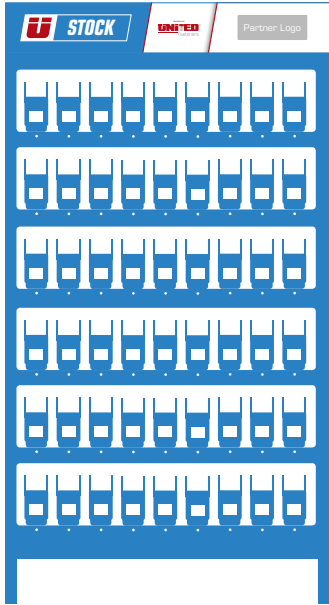

SMART TECHNOLOGY Smart Cabinet

- Ultra-High-Density Dispensing
- Combines smart cabinet and drawers to track your toughest dispensing challenges
- Highly secure, ensuring greater control on stock
- Flexible Configurations
- Bins, pushers and smart platforms count every item removed or added

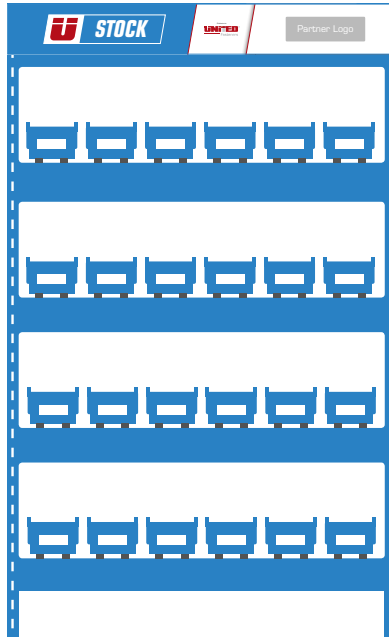

Monthly fee may be applicable

SMART TECHNOLOGY

Smart Weighted

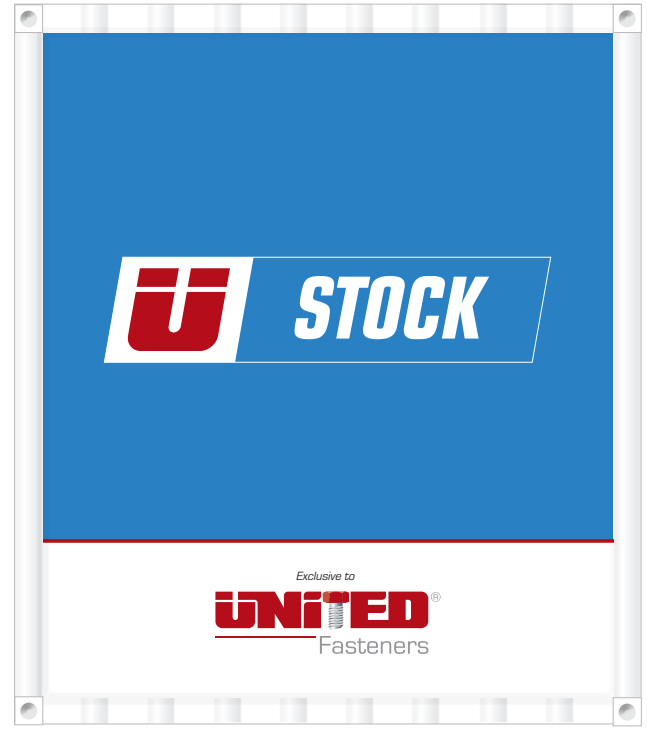

- Advanced Kan-Ban system
- Each tub has a scale to monitor stock

MOST POPULAR

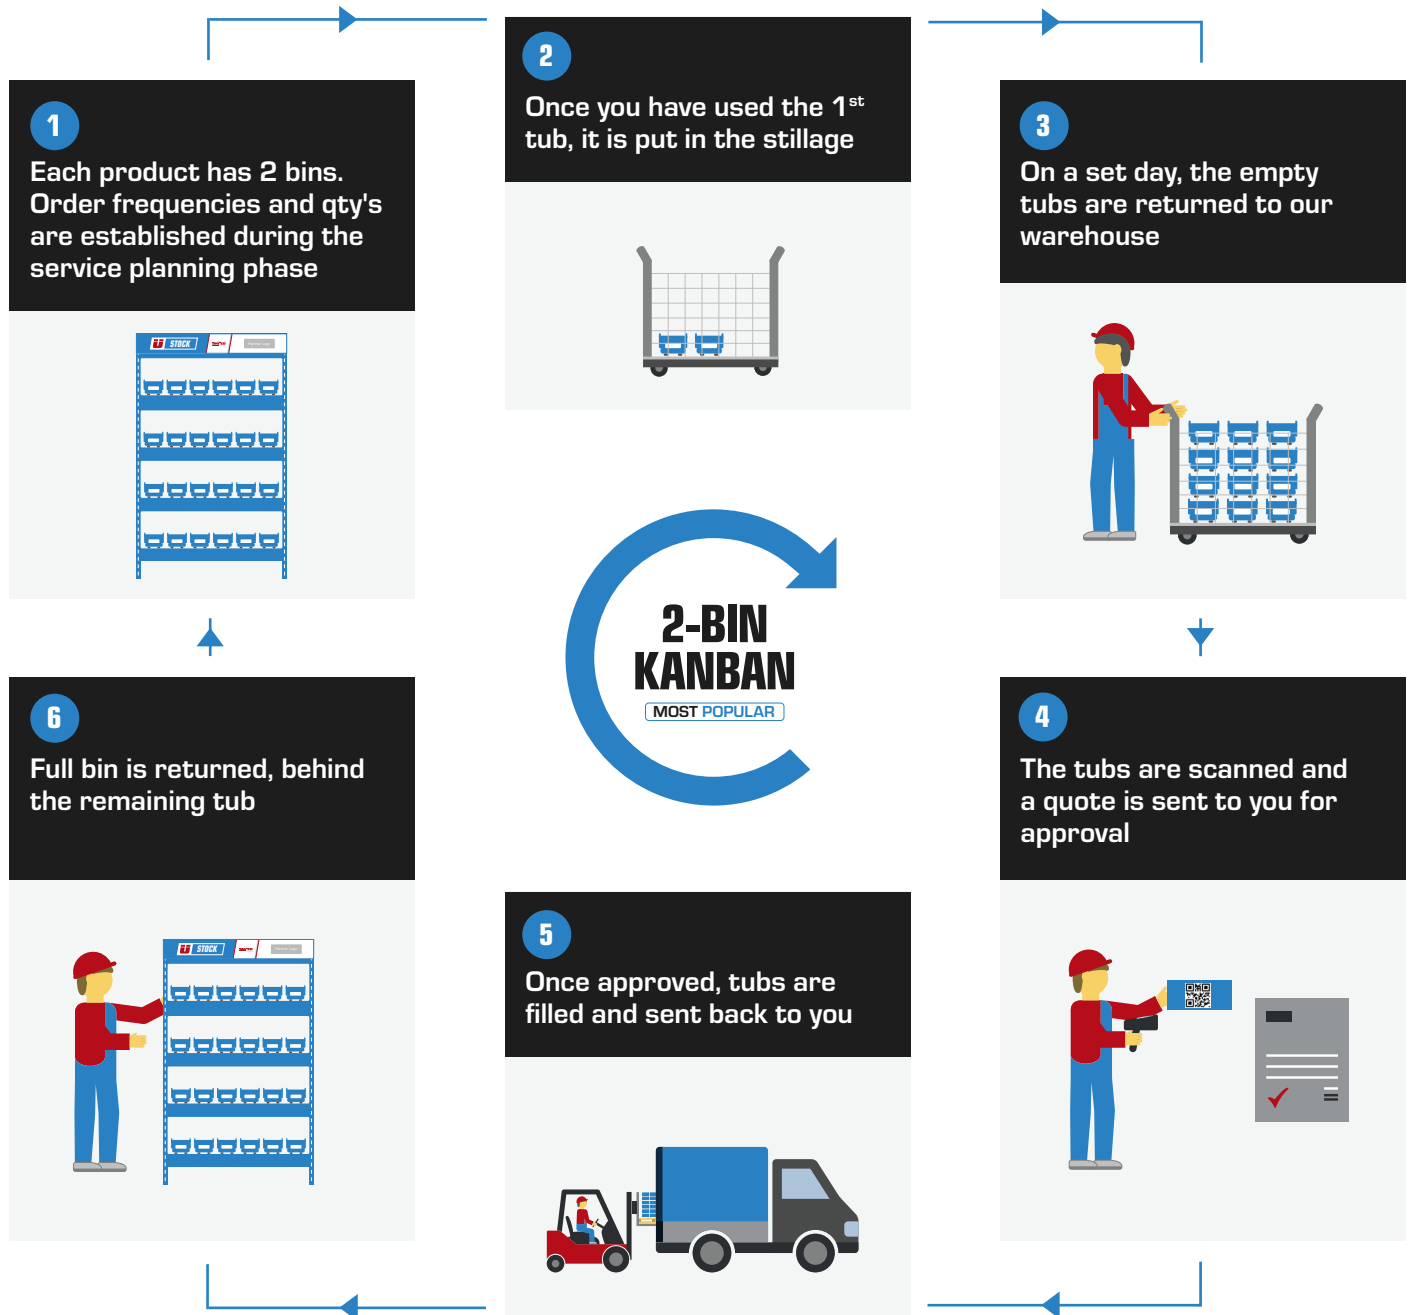

Kanban

- Specifically designed for Stor-pak bins
- Does not require a power source
- A modular system where you can increase capacity with additional racks, which remain uniform & consistent

On-Site Container

- Great for holding large quantities of stock securely on site
- Product available when needed
- Productivity due to no downtime waiting on supply
- Flexibility to change product mix as the job evolves
- Stock reliability
- Restricted, secured access with monitoring capabilities
